Responsible for installing structured cabling systems and AV systems in the Baltimore, MD and DC Metro region, to include but not limited to:

- Installation of low voltage communication cabling systems – consisting of copper, fiber optics, coaxial cables, and AV cabling within new commercial construction and occupied office space.
- Build-out of telecommunication closets to include equipment racks, cabinets, ladder racking systems, patch panels, and AV equipment & devices.
- Learn to interpret audio-visual signal flow and architectural layout drawings.
- Read and understand blueprint measurements and specification sheets.
- Testing, labeling, and certification of new cable installations and AV equipment.
- 

### **Position Requirements**

- Professional, team-oriented work ethic; willingness to learn.
- Adherence to regular attendance and normal scheduled hours; willing to work overtime, often on short notice.
- Familiarity and the ability to work with various hand tools.
- Ability to work on ladders of varying heights.
- Ability to frequently lift up to 30 lbs.
- Ability to successfully pass a pre-employment screening process that includes a background investigation, drug screen, and acceptable driving record.
- High school diploma or equivalent.
- Due to client requirements, US citizenship is required.

### **Benefits**

- 401(k) matching
- Dental insurance
- Vision insurance
- Flexible spending account (FSA)
- Medical insurance
- Company paid Life and AD&D insurance
- Voluntary Term Life insurance
- Short-Term & Long-Term Disability insurance (Company Paid)
- On-the-job training & industry certifications
- Opportunities for career advancement
- Paid time off (PTO) and Floating Holiday(s)
- Referral program
- Discount Movie Tickets
